

# Website Care Package

<b>Hosting or Minimal Back-end Maintenance.</b>	<b>Basic Maintenance Monthly.</b>	<b>Basic Maintenance Yearly ~ BEST VALUE ~</b>
-------------------------------------------------	-----------------------------------	----------------------------------------------------

**Hosting of your site** with no other benefits. You will have a platform where your website will be housed so that the internet can see it. Only minor updating such as the WordPress core, and automatic updating of plugins. **We will check periodically** to make sure it is running smoothly, and back up the site every month at no extra charge. We have systems in place to let us know when something is up, and as we get an update we fix it right away. Editing, additions and updates will be done at our regular rate of \$45.00 per hour with a 1 hour minimum fee.

Maintenance Including the following:

- Security
- Daily and weekly backups of your site in more than one location
- Core and plugin updates continually
- Minor updates
- Drastically reduced rates on future work and additions.
- Search Engine optimization on 3 of your main site pages.
- Access to the member areas for free information and training videos as they become available.
- Further work @\$25.00 per hour.
- Save your passwords in a secure location in case you forget them.

***This list gets longer every day.***

**Same as the Basic monthly** only you only pay one time per year. With this payment plan you will get **2 months free. So this is the best value plan.** It will be set up to be billed automatically unless you let us know otherwise, but you will get notice before the next billing cycle begins. **Editing, programming,** updates, and additions will be at the drastically reduced rate of \$25.00 per hour with a 1 hour minimum.

**What our basic Maintenance Package does is give your business "Peace of Mind."**

**What would you rather do?**

**Worry about whether your site is up and running or down and not running.**

**Worry about whether or not you have the right things in place for the search engines. Does Google see me?**

**Worry if something you do is going to break your site?**

**Worry if your site is secure enough for your clients?**

**Forget your passwords, and other login information?**

**BASIC MAINTENANCE PLAN IN DETAIL**

---

## **We at BarbApple Studios take out the worry completely by:**

**Monitoring the plugins**, and updating them when necessary.

**Monitoring the WordPress core**, and updating when needed. Monitoring the WordPress community and getting info ahead of time so that you are ready when the new updates come out.

**Back up your website** on a daily, weekly and monthly basis. All backups are placed in several secure locations to make sure no information is lost.

**Update you through our "members only"** newsletter about important additions you can use, or cool things to enhance your web-presence.

**Make sure methods are in place** to secure your website against virus, Malware, and Spam attack.

**Give you Drastically Discounted rates** on any more work, or other projects that you may have, as well as any custom programming projects that your site might benefit from. Our regular rate is \$45.00 per hour, and you get it for \$20.00 per hour.

**Give you access to all the training videos** we produce so that you can get up to speed working on your site yourself if you decide to give that a go, and to support you through that. We are adding more of these every week.

**Host your site is with us** because we choose hosting services and observe strict hosting practices to ensure that your site is not lost in the big corporate shuffle. We still use the protocols and other other necessary services that the big guys use. We will create the emails you need at "yourdomainname.com" and make sure they forward to a main email if that is your desire.

**We keep your passwords safe**, and login information secure in case you forget or like to change them regularly. We will always keep a handy way for you to get back into your website if you lock yourself out.

**Add the text necessary** to a few of your pages so that search engines find them very friendly.
