

Scott cook

Dear Martin,

I want to thank you for the wonderful job you did on my website. Throughout the whole project you were very professional. You provided great artistic input while still listening to my needs.

Even with all my changes the project was finished within my time frame. I would certainly recommend you to others and would not hesitate to use you again in the future. Thanks again for a job well done.

What a great experience it was working with Martin from BarbApple Studios. He helped me get together and design a site for me. Even though I am not ready to deploy it yet, it is still great. It helps that he is my daddy as well. Who says your daddy can't design your website?

airplanebuyersclub.com

"Martin was very easy to work with. He was clear and concise with his work. Not only did he help fix my problems, but he also *taught* me how to fix future problems (Really important). Awesome guy!"

Melanie Liebchen

Just love my website! Not only did Barbapple Studios design my website according to my very demanding requests but also trained me amazingly so I can now make ANY adjustments myself. Believe me, he was very patient. Can't recommend Barbapple Studios highly enough!

Irish Rover Pub

Thank you Martin for all that you did getting our pub, Irish Rover in Sarasota on the web. The site wa beautiful and exactly what we needed. You walked us through the process and it definitely wasn't as painless as the last time I tried to have it done elsewhere. You came in under the budget and way under the time and I thank you for that as well.

Paul Duffy - Proprietor Irish Rover Pub, Sarasota

Connie Jordan

Martin has taken care of my website ever since I started blogging back in 2007. He has done a beautiful job and has been there to fix things whenever they go

wrong. He has been able to help me identify where I need to put my energies in the blogging arena, and helped so many times to retrieve lost posts, broken plugins, and when I get tired looking at it to give it a new look and feel. I have never had an issue with spam and other hacks for very long. Whenever this happens he is right there to fix it. This is all stuff I don't have to worry about, and haven't had to worry about since I started blogging. Thank you so much
